172 MERCER ST, NEW YORK
(MERCER AND HOUSTON)

Enrico Pellizzoni has been producing leather furniture for more than thirty years and has got a long-lasting experience in the handcraft processing. It works for the upscale domestic and international market and its clients are the topmost showrooms.

Enrico Pellizzoni produces its collection with the collaboration of qualified Italian and foreign designer.

The articles are manufactured by highly skilled employees who use traditional working methods, as well as top-quality, naturally tanned leather to guarantee environmentally-friendly products.

The company's production is collected in two catalogues: THE LUXURY HOME and THE SMART OFFICE. The first one includes chairs, armchairs, tables, small tables, bookcases, modular sideboards, beds, bedside tables, mirrors, benches, chaise-longue, etc. The second one includes writing desks, meeting tables, swivel office armchairs, chest of drawers, storage cabinets and waiting areas.

Mostly of these products can also be made in customers size as well as with different type of leather (hard and soft leather), dimensions and finishing (wood, metal or glass).

In the last years the firm has been engaged in some important contract projects supplying several restaurants (mostly with chairs) and many offices worldwide.

As references we can mention SBB (the national rail company of Switzerland) for which we supplied chairs for restaurant coaches, Cospaia Bar-Restaurant in Brussels, Aforce Finance offices and France 5 Television offices in Paris, Sadler Restaurant in Milan exhibition fairground, Ferrari Café Bar in Las Vegas and many others.

We are also the official supplier of 5 star hotels Meliá de Mar in Spain with our chair Pasqualina.

We are in a position to face big quantity orders and to follow customer design according to different fire-proof certifications (California Technical Bulletin 117 and DIN 54837 as examples).

In January 2007 we also got the quality certification ISO 9001:2000.
